Permission has been granted Capt. W.M. LEE DAVIDSON to raise the above corps. General Rasson desires such an organization attached to his Brigade.

Three Companies of the above description are more effective than one whole regiment of regulars. It is the same mode of warfare that was carried on in the revolution. Let us harass and annoy the enemy in the rear. One more appeal is made to old Mecklenburg and the surrounding Counties. The Conscription act requiring all men between 18 and 35 years of age, to enter the service, has passed the Confederate Congress. The last appeal is made to all within those ages to promptly ages. to this call. Especially of our own dear county let it be said—"Many have done well, but ruou excellest them all." A YANKEE TRICK.—On Saturday evening the telegraph operator at Grand Junction received a dispatch, dated Corinth, stating the track was clear and no train would be down that night. At once a large train, filled with soldiers, was prepared to send up the road, when, ten min-utes before it would have started, a freight train arrived down the road. A circumstance so contradictory of the telegram re-ceived, led the operator at Grand Junction to making inquiries of the operator at Corinth, when the fact came out that the inutes later, the train full of soldiers ould have set out with the belief they had clear track, and a fearful loss of life would

The charge of our boys under the com-mand of Col. Davie was magnificent, and their steadiness, under a storm of shells and shot, was admirable. Every officer and trooper of the Wise Legion and the Palmetto did his whole duty.
Our loss was only seven, killed and

wounded. The enemy having their sights up for long range, overshot our column, and hence the smallness of our loss.—
Among the foremost in the charge were the Colonel commanding, his Adjutant, Marion Dimmock, Captain Caskie, and especially the officers of the gallant Pal-

Mobile AND ITS CONDITION .- Of the Gulf cities, Mobile is the only important one not temporarily lost, and its impertance is due to a war processity. It is to be held because it is of inestimable value to the army now massed at Corumb. We therefore, in defending it, are engaged in something more than protecting the mere

Our Government has wisely concluded that it is better to expose the extremities of the Confederacy than its heart; and for he safety of the latter is gathering

If it were not for this relative value Mobile to the safety of the commonwealth, we suppose it would not be adequately detended-for its loss would not much hurt the cause, and every one must be asssured that its occupation would be only for a imited time. The enemy does not expect to kold any of the places he has taken, unless he can entirely subjugate us. Great battles won near the heart of the country will make these places useless to him; and after a while they will have to be restored

to their rightful owners.

Mobile, as we have stated, is an excepon to this, and, therefore, the Government holds its defence necessary to the general

Thus, Mobilians, the post of honor i yours. You will fight here not only for the security of your city, but for the cause of your country—for the retrieval of a disaster which, it is possible, may fall on your brave fellow countrymen at Co-

rinth.
Our people overestimate the importance of the coast cities of our States.

In peace they are great instruments of trade. All foreign commerce passes through them, and from them are derived the bulk them, and tram them are derived the bulk of the revenue for the support of the Government. Since this war began they have had no trade, and consequently have given no revenue to the country.

In the second place, they are marely consumers. Our cities produce nothing for food and raiment. They have been

the consumers heretofore almost entirely of what are now foreign productions. They, are therefore, dependent on the interior places for this food and also their raiment. Being occupied by the foe, they do not leasen the real strength of the country, which is in the interior. That supplies men, subsistence, horses, and eve-

THE BATTLE OF SEILOH-COWARDIGE. A division of the enemy, commanded by Gen. Hurlbut, was in the brunt of the battle on the field of Shiloh. His official report gives the casualties as follows

Killed, Wounded, 1,417 Missing.

Loss of Myers' and Ross' batteries; Horses, Guns and caissons,

In the official report of Gen. Huribut we ind the following: "I recommend that the officers of the 13th Ohio battery be musred out of service, and the men and me erial remaining be applied to filling up the ranks of some battery which has done onor to the service." The reason for this we find in a former

The reason for this we not in a former portion of the report, as follows:

"A single shot from the enemy's battery struck in Myers' battery, when officers and men, with a common impulse of diagrace-ful cowardice, chandoned the entire battery, orses; causeon and gans, and fled, and I w them no more until Tuesday."

In the face of this force Scott recrossed both Elk and the Tennessee rivers, driving back the 4th Ohio cavalry, 400 strong, who attacked his sear guard, killed their Colonal

This daring jest is worthy of record from he fact of Scott's crossing two rivers on frail flats, and leaving them in his rear whilst he attacked five times the number

of his force.

The rejoicing of the people of Athens and the vicinity was great. The ladies turned out in great crowds and presented Col. Scott with a Confederate flag. In

GEN. FLOYD PROMOTED BY THE LEGISDA rung.—We learn that the General Assem-oly have appointed Gen. John B. Floyd Major General of the Virginia forces, with Major General of the Virginia forces, with authority to raise a force of twenty thousand men, non-conscripts, for the defence of Western Virginia. The act is important, and it is to be hoped will stir up the spirit of the West, in defence of the mines and railroads which are now so important to the South to sustenance and defence.—
